

CR-4100

POSIFLEX Low Profile Cash Drawer

InfoComm
Solutions

Description

The CR-4100 series Cash Drawer is a larger drawer than its CR-3100 cousin. The draw has been designed with reliability and durability in mind. It is a rugged design with reinforced heavy gauge steel construction and large ball bearings riding on special guides for a remarkably smooth drawer slide.

Reliable Operation

The style is contemporary and uses advanced electronic components for the drawer release mechanism that extend the Mean Time Between Failure (MTBF) figure to not less than 1 million Open and Closes. Precision mechanical parts with tight tolerance assure wobble-free drawer operation and the drawer also has a special feature that cushions drawer slams to protect the system.

Security

POSIFLEX's CR-4100 series cash drawer has a patented "Screw-less" tamper-resistant design for added security. There is a Check slot for non-cash or large-bill transactions. A three-position lock is fitted for maximum cash security and the drawer has a drawer open sensor, again to enhance cash security.

The Cash Drawer has a removable tray and an optional lock-on cover, TC-4100, is available.

Interfaces

The CR-4100 series Cash Drawer is available with a variety of interfaces including a POS Printer Interface, Dedicated RS-232, Non-Dedicated RS-232, Parallel or Serial Interfaces. The POS printer interface will connect to Posiflex, Epson, Star, Axiohm, Current Citizen Printers & most Cash Registers and can also be driven by a foot switch.

Cash Tray

Bill compartments and coin compartments are fixed with 5 Note compartments and 7 Coin Compartments. The Bill/Note Clips are metal.

Standard Features

The CR-4100 Cash Drawer standard features are:

- Contemporary Style
- Innovative Screw less Design
- Reinforced Heavy Gauge Steel Construction
- Smooth Drawer Slide Operation
 - using large ball bearings and special guides
- MTBF not less than 1,000,000 Open/Closes
- Wobble Free Drawer operation
- Cheque or Large Bill Slot
- Three Position Lock and Drawer Open Sensor

Warranty

The CR-4100 is provided with 12 months warranty.

CR-4100 Specification

Characteristic	Value
Dimensions	428mm(W) x 460mm(D) x 100mm(H)
Weight	6.0 kg
MTBF	>1,000,000 open/closes
Colour	Beige or Charcoal

Input to Solenoid

Pulse Amplitude	12 V to 24 V
Max Input Voltage	26.4 V
Pulse Width	100 - 250 msec
Current Consumption	0.75 Amp @ 12 V DC 1.5 Amp @ 24 V DC
Pulse Duty Cycle	10% Max
Activation Current	0.9 Amp Max

Cash Drawer

Cash insert	Removable
Note Compartments	5 Fixed
Coin Compartments	9 Fixed
Bill Clip	Metal

CR-4100 Series Accessories

Item	Description
CT-4100	Additional cash insert
TC-4100	Optional Lockable Security Lid with Key
UB-4100	Under Counter Mounting Bracket, Beige Colour Only
CB-4100	Push Button Drawer Release, includes power supply
CB-4100F	Foot Push Cash Drawer Release, includes power supply
